DETAILED ACTION

Claims 45-61 are pending.

Preliminary amendments are entered.

No claim is allowed.

Priority

This application filed under former 37 CFR 1.60 lacks the necessary reference to the prior application. A statement reading "This is a division of Application No.09/830,167, filed 4/23/2001, which is a 371 of ----." should be entered following the title of the invention or as the first sentence of the specification. Also, the current status of all nonprovisional parent applications referenced should be included.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

Claims 45-61 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Following reasons apply.

Definition of Q is missing from claim 45.

It is unclear what is the meaning of "derivative" in claims. It is suggested to delete this term and insert "compound" as was done in other related cases.

What is intended by the parenthesis starting from line 1 on page 3 (claim 45)?

This sign is used to indicate deletion. A clarification is required.

Art Unit: 1616

Instant claims differ from the prior art US 4851401 in having Q as C (F), whereas prior art teach no such substitution.

Method claims will be joined when compounds would be allowable.
